## Message from Chairman

I extend my warmest greetings to you all. It is with honor and a sense of responsibility that:

**Acknowledging the Historical Context:** Please note that the current Board of Directors and Management team were not at the helm during the financial period under review. The financial statements provided in this report were prepared by HLB Mann Judd, our accountants, based on the source documents available at the time.

**A Year Marked by Challenges:** The year brought a set of challenges that tested the mettle of our organization. Despite these challenges, our commitment to transparency and accountability remained steadfast.

**Audit Completion and Transparency:** As of 15th March 2024, the audit for the fiscal year 2014 has been successfully completed. I regret to inform you that, as per the audit findings, Food Processors Fiji Limited incurred a Net Loss of (\$294,684) during that financial year. The auditors have issued their report based on the Basis for Disclaimer of Opinion, citing the significance of the matters described therein.

**Honoring Our Legacy:** It is imperative that we acknowledge and respect the rich legacy of Food Processors Fiji Limited—a legacy built on growth, dedication, and unwavering customer trust. We are committed to honoring this legacy while gleaned valuable lessons from our history to pave the way for a stronger and more resilient future.

**Reaffirming Our Commitment:** The current Board of Directors and Management team reaffirm our unwavering commitment to the core values that have defined our organization throughout its storied history. These values encompass quality, sustainability, innovation, and corporate responsibility.

**Looking Ahead:** While this report casts a retrospective glance, our collective vision remains steadfastly fixed on the horizon of the future. We are resolute in our pursuit of growth, sustainability, and innovation.

**A Message of Gratitude:** In conclusion, I extend my heartfelt gratitude to each of you, our esteemed shareholders, for your enduring trust and support. Your trust remains our most cherished asset.

**Disclaimer:** This Statement of Directors is signed by the Chairperson and the Directors of FPFL as of the date of signing as authorised by the Board on behalf of these position holders during the financial year 2014. The signature in no way is to be construed as the signatories assuming any responsibility or liability for the financial transactions for the financial reporting and audit period.

In the face of both challenges and opportunities, let us embrace the path forward with unwavering resolve. Together, we shall continue the enduring journey of Food Processors Fiji Limited, guided by the principles of excellence and unwavering integrity.

Thank you for your continued trust.

Sincerely,

[Raj Sharma] Chairman, Food Processors Fiji Limited

**FOOD PROCESSORS (FIJI) LIMITED  
DIRECTORS' REPORT  
FOR THE YEAR ENDED 31 DECEMBER 2014**

---

In accordance with a resolution of the Board of Directors, the directors herewith submit the statement of financial position of Food Processors (Fiji) Limited (the company) as at 31 December 2014, the related statement of comprehensive income, statement of changes in equity and statement of cash flows for the year ended on that date and report as follows:

**Directors**

The names of directors in office at the date of this report are:

Mr Raj Sharma  
Mr. Nacanieli Sautuca  
Mr. Ilisoni Leweniqila  
Ms. Anna Morris  
Ms. Annabel Ducia  
Ms. Jimaima Lako

**Principal Activities**

The principal activities of the company during the year were that of processing and canning of agro food products, value adding seafood and owners and administrators of properties and investments and farming operations.

There were no significant changes in the nature of these activities during the year.

**Results**

The net loss of the company for the financial year was \$294,684 (2013: net loss of \$303,192).

**Dividends**

The directors recommend that no amounts be paid by way of dividends for the year ended 31 December 2014.

**Provisions**

There were no material movements in provisions during the year apart from the normal amounts set aside for such items as depreciation and doubtful debts.

**Reserves**

It is proposed that no amounts be transferred to reserves within the meaning of section 42 of the Companies Act, 2015.

**Current and Non-Current Assets**

Prior to the completion of the company's financial statements, the directors took reasonable steps to ascertain whether any current and non-current assets were unlikely to realise in the ordinary course of the business their values as shown in the accounting records of the company. Where necessary, these assets have been written down or adequate allowance has been made to bring the values of such assets to an amount that they might be expected to realise.

As at the date of this report, the directors are not aware of any circumstances, which would render the values attributed to the current and non-current assets in the company's financial statements misleading.

**Bad and doubtful debts**

Prior to completion of the company's financial statements, the directors took reasonable steps to ascertain that action had been taken in relation to writing off of bad debts and in making of allowance for doubtful debts. In the opinion of the directors, adequate allowance has been made for doubtful debts.

At the date of this report, the directors are not aware of any circumstances, which would render the amount written off for bad debts, or allowance for doubtful debts in the company, inadequate to any substantial extent.

**Unusual transactions**

In the opinion of the directors, the results of the operations of the company during the financial year were not substantially affected by any item, transaction or event of a material unusual nature.

**Basis of accounting**

The directors believe the basis of the preparation of financial statements is appropriate and the company will be able to continue in operation for at least 12 months from the date of this statement. Accordingly the directors believe the classification and carrying amounts of assets and liabilities as stated in these financial statements to be appropriate.

**Events subsequent to balance date**

On 16 November 2009, the Cabinet approved the restructure of loan balance from the Government of Fiji to the company, waived accrued interest and suspended interest on the remaining outstanding Government loan balance, until the disposal of underutilized properties of the company, namely NATCO building and Savusavu property. On 21 October 2015, the board of directors noted the previous board's decision and approved the recording of Batiri Farm assets and liabilities in the financial statements of Food Processors (Fiji) Limited from 2008 subject to legal opinion from Solicitor General's office. On 09 June 2017, the Ministry of Public Enterprise provided a written confirmation that Food Processors (Fiji) Limited is the registered title holder and the current lessee of the land.

Furthermore, the Government of Fiji is in the process of divesting its shareholding in the company. At the date of this report, the process is yet to be completed. The company has refinanced its loan from BSP to Fiji Investment Corporation Limited (FICL). This was done to meet the outstanding debt/demand notice from BSP bank. Through Government approval, sale of property was initiated for NATCO Building, Walubay and Savusavu Industrial, Savusavu. This sale of property process is still on going. Upon sale, surplus funds after paying off FICL loan will be used to retain and re-invest in Food Processor's (Fiji) Limited for capital investment purpose. The company is also viewing into conversion of government loan of \$1.9m into equity.

**FOOD PROCESSORS (FIJI) LIMITED**  
**DIRECTORS' REPORT - *Continued***  
**FOR THE YEAR ENDED 31 DECEMBER 2014**

---

**Other circumstances**

As at the date of this report:

- (i) No charge on the assets of the company has been given since the end of the financial year to secure the liabilities of any other person;
- (ii) No contingent liabilities have arisen since the end of the financial year for which the company could become liable; and
- (iii) No contingent liabilities or other liabilities of the company has become or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the directors, will or may substantially affect the ability of the company to meet its obligations as and when they fall due.

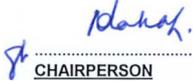

As at the date of this report, the directors are not aware of any circumstances that have arisen, not otherwise dealt with in this report or the company's financial statements, which would make adherence to the existing method of valuation of assets and liabilities of the company misleading or inappropriate.

**Directors' benefits**

Since the end of the previous financial year, no director has received or entitled to receive a benefit (other than benefits disclosed in the financial statements and / or included in the aggregate amount of emoluments received or due and receivable by directors shown in the financial statements or received as the fixed salary of a full-time employee of any company or of a related corporation) by reason of a contract made with the company or a related corporation with the director or with a firm of which he is a member, or with a company in which he or she has a substantial financial interest.

For and on behalf of the board and in accordance with a resolution of the board of directors.

Dated this 4<sup>th</sup> day of March 2024.

## INDEPENDENT AUDITOR'S REPORT

### Food Processors (Fiji) PTE Limited

### Report on the Audit of the Financial Statements

#### Opinion

I have audited the accompanying financial statements of Food Processors (Fiji) PTE Limited ("the Company"), which comprise the Statement of Financial Position as at 31 December 2014, the Statement of Comprehensive Income, the Statement of Changes in Equity, the Statement of Cash Flows for the year ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory notes.

In my opinion, because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, I have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, I do not express an opinion on the financial statements.

#### Basis for Disclaimer of Opinion

1. The Company did not maintain proper accounting records relating to Trade and Other Receivables, Other Assets, Inventories, Trade and Other Payables, Property, Plant and Equipment, Current Tax Liability and Deferred Income of the year ended 31 December 2013. Therefore, I am unable to satisfy myself concerning the opening balances disclosed in the Statement of Financial Position of the Company and the impact it may have on the determination of the closing balances of the 2014 financial statements.

#### Trade and Other Receivables

2. The Company recorded Trade and Other Receivables (Note 6) balance of \$704,608 in the Statement of Financial Position as at 31 December 2014. While the Company was able to provide reconciliations, relevant supporting documents to verify the balances amounting to \$527,669 were not provided for my verification. In addition, the Company was not able to provide subsidiary listings for Other Receivables which included Prepayment \$174,070.

Consequently, I was not able to ascertain the existence and accuracy of the amount and whether any adjustments might be necessary in respect of the Trade and Other Receivables balances at the end of the financial year and any corresponding adjustments for the year ended 31 December 2014.

#### Inventory

3. The Company did not perform the annual stock take and was unable to provide me with sufficient appropriate audit evidence to verify the Inventory (Note 10) costing for Raw Materials and Finished Goods, which is valued at \$519,989. I was unable to satisfy myself by alternative audit procedures concerning the inventory quantities held as at 31 December 2014. Accordingly, I am unable to determine the impact of the above limitations, if any, to the inventory balances recorded in the financial statements as at 31 December 2014.

## **Basis for Disclaimer of Opinion (con't)**

### **Property Plant and Equipment**

4. The Company was not able to provide the appropriate documents to support Property, Plant and Equipment (Note 8), and Investment Property (Note 9) accounts amounting to \$2,449,151, and \$3,084,605 respectively. Due to the length in time that has lapsed from the financial year to the commencement of the audit, I was unable to perform physical verification tests as to the existence of Property, Plant and Equipment, Construction in Progress, Investment Property, and Intangible Assets. The Company did not perform a Board of Survey at the end of the financial year.

Consequently, I was not able to ascertain the completeness and accuracy of the amount and whether any adjustments might be necessary in respect of the addition, disposal, and accumulated depreciations at the end of the financial year and any corresponding adjustments to the elements making up the Statement of Comprehensive Income and Statement of Financial Position could not be determined for the year ended 31 December 2014.

### **Trade and other Payables**

5. The Company recorded Trade and Other Payables (Note 12) balance of \$1,410,587 in the Statement of Financial Position as at 31 December 2014. While the Company was able to provide reconciliations, relevant supporting documents to verify the balance were not provided for my verification. Consequently, I was not able to ascertain the existence and accuracy of the amount and whether any adjustments might be necessary in respect of the Trade and Other Payables balances at the end of the financial year and any corresponding adjustments for the year ended 31 December 2014.

### **Current Tax Liability**

6. The Company recorded Current Tax Liability (Note 5(b)) balance of \$329,171 in the Statement of Financial Position as at 31 December 2014. The Company was unable to provide the appropriate reconciliation and supporting documents to verify balances. Consequently, I was not able to ascertain the existence and accuracy of the amount and whether any adjustments might be necessary in respect of the tax liability balances at the end of the financial year and any corresponding adjustments for the year ended 31 December 2014.

### **Operating Income and Expenditure**

7. The Company recorded Sales Revenue of \$2,524,262, Rental Income of \$218,806, Amortization of Deferred Income of \$166,250, Profit on Sale of Fixed Assets of \$21,739, Other Revenue of \$27,070, Cost of Sales of \$1,688,091, Salaries and Wages of \$672,986 in the Statement of Comprehensive Income. The Company was unable to provide sufficient and appropriate supporting documents for a significant portion of these balances.

Consequently, I was not able to ascertain the completeness and accuracy of the balances and whether any adjustments might be necessary in respect of the balances at the end of the financial year and any corresponding adjustments to the elements making up the Statement of Comprehensive Income could not be determined for the year ended 31 December 2014.

I have conducted my audit in accordance with International Standards on Auditing (ISA). My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the

Company in accordance with the International Ethics Standards Board for Accountant's *Code of Ethics for Professional Accountants* (IESBA Code) together with the ethical requirements that are relevant to my audit of the financial statements in Fiji and I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

### **Other information**

The Directors and Management are responsible for the other information. The other information comprises the information included in the Directors' report but does not include the financial statements and my auditors' report thereon.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or my knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work, I conclude that there is a material misstatement of this other information, I am required to report that fact. Accordingly, I am unable to conclude whether or not the other information is materially misstated with respect to matters described in the Basis for Disclaimer of Opinion.

### **Responsibilities of the Directors and those Charged with Governance for the Financial Statements**

The Directors and Management are responsible for the preparation and fair representation of these financial statements in accordance with International Financial Reporting Standards (IFRS) and the Companies Act 2015. This responsibility includes designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making estimates that are reasonable in the circumstances.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. However, because of the matters described in the Basis for Disclaimer of Opinion section of my report, I was unable to provide a basis for an audit opinion of these financial statements.

I provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

FOOD PROCESSORS (FIJI) LIMITED  
STATEMENT BY DIRECTORS  
FOR THE YEAR ENDED 31 DECEMBER 2014

---

The current board of directors were appointed during year ended 31 December 2018. Accordingly, the current directors were not involved in management or operations of the company during year ended 31 December 2014. The financial statements has been prepared from the books of account and accounting information and records available with the company.

In accordance with a resolution of the board of directors of Food Processors (Fiji) Limited, and subject to the above comment and to the best of our knowledge and information, we state that in the opinion of the directors:

- (i) the accompanying statement of comprehensive income of the company is drawn up so as to give a true and fair view of the results of the company for the year ended 31 December 2014;
- (ii) the accompanying statement of financial position of the company is drawn up so as to give a true and fair view of the state of affairs of the company as at 31 December 2014;
- (iii) the accompanying statement of changes in equity of the company is drawn up so as to give a true and fair view of the changes in equity of the company for the year ended 31 December 2014;
- (iv) the accompanying statement of cash flows of the company is drawn up so as to give a true and fair view of the cash flows of the company for the year ended 31 December 2014;
- (v) the financial statements have been prepared in accordance with International Financial Reporting Standards;
- (vi) at the date of this statement, there are reasonable grounds to believe that the company will be able to pay its debts as and when they fall due; and
- (vii) all related party transactions have been adequately recorded in the books of the company.

For and on behalf of the board and in accordance with a resolution of the board of directors.

Dated this 4<sup>th</sup> day of March 2024.

FOOD PROCESSORS (FIJI) LIMITED  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2014

---

**1.1 General Information**

Food Processors (Fiji) Limited (the company) is a limited liability company incorporated and domiciled in Fiji. The address of its registered office and principal place of business is located at Lot 68 - 70, Millet Road, Vatuwaqa, Suva.

The principal activities of the company during the year were that of processing and canning of agro food products, value adding seafood and owners and administrators of properties and investments and farming operations.

There were no significant changes in the nature of these activities during the year.

**1.2 Basis of preparation of the financial statements**

**Statement of Compliance**

The financial statements of the company have been prepared in accordance with International Financial Reporting Standards ("IFRS").

**Basis of Preparation**

The financial statements have been prepared under the historical cost basis, except for property, plant and equipment and investment property that have been measured at fair value in the financial year 2008, and the revalued amounts are being used since.

In the application of IFRS, management is required to make judgments, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstance, the results of which form the basis of making the judgments. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. Judgments made by management in the application of IFRS that have significant effects on the financial statements and estimates with a significant risk of material adjustments in the next year are disclosed, where applicable, in the relevant notes to the financial statements.

The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are critical to the financial statements are disclosed in Note 1.5.

Accounting policies are selected and applied in a manner which ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events is reported.

**1.3 Changes in accounting policy**

The company re-assessed its accounting for property, plant and equipment and investment property with respect to measurement of certain classes of property, plant and equipment and investment property after initial recognition. The Company had previously measured all property, plant and equipment and investment property using the cost model whereby after initial recognition of the asset it was carried at cost less accumulated depreciation and accumulated impairment losses.

The Company elected to change the method of accounting for property, plant and equipment and investment property since the Company believes that revaluation model more effectively demonstrates the financial position of property, plant and equipment and investment property.

After initial recognition the Company uses the revaluation model whereby property plant and equipment and investment property will be measured at fair value at the date of the revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. The company adopted this method in 2008.

However in 2009, tax effect for accounting was removed and the prima facie accounting was re-instated. Apart from this change been no other changes and they have been applied on a consistent basis with those of the previous period.

**1.4 Standards, Amendments and Interpretations Issued but not yet Effective**

The following standards, amendments and interpretations to existing standards have been published and are mandatory for the company's accounting periods beginning on or after 1 January 2009 or later periods, but the company has not yet adopted them. No significant impact is expected to arise out of these standards, amendments and interpretations.

- IAS 23 (Amendment), 'Borrowing costs' (effective from 1 January 2009).
- IFRS 8, 'Operating segments' (effective from 1 January 2009). IFRS 8 replaces IAS 14.

**1.5 Summary of Significant Accounting Policies**

The following significant accounting policies have been adopted in the preparation and presentation of the financial statements:

**a) Allowance for Doubtful Debts**

An allowance is made in respect of debts considered doubtful based on a review of outstanding amounts at year end. Bad debts are written off during the year in which they are identified.

**b) Borrowings**

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the statement of comprehensive income over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the company has an unconditional right to defer settlement of the liability for at least 12 months after the balance date.

**c) Borrowing Costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognized as an expense in the period in which they are incurred.

**d) Cash and Cash Equivalents**

For the purpose of statement of cash flows, cash and cash equivalents comprise of cash on hand, cash in banks and other short term highly liquid investments that are readily convertible to a known amounts of cash and are subject to an insignificant risk of changes in value. Cash and cash equivalents are stated net of bank overdraft. Bank overdrafts are shown within borrowings in current liabilities in the statement of financial position.

1.5 Summary of Significant Accounting Policies (Cont'd)

e) **Comparatives**

There have been no changes made to the amounts relating to prior years.

f) **Dividend Distribution**

Dividend distribution to the company's shareholders is recognised as a liability in the company's financial statements in the period in which the dividends are declared by the company's directors.

g) **Employee Benefits**

Wages, salaries and sick leave

Liabilities for wages and salaries expected to be settled within 12 months of the reporting date are accrued up to the reporting date. Liabilities for non-accumulating sick leave are recognised when the leave is taken and measured at the rates prevailing at that time.

Defined Contributions Plan

Contributions to Fiji National Provident Fund are expensed when incurred.

h) **Foreign Currency Translations**

Functional and presentation currency

The company operates in Fiji and hence the financial statements are presented in Fiji dollars, which is the company's functional and presentation currency.

Transactions and Balances

All foreign currency transactions during the financial year are brought to account using the exchange rate in effect at the date of the transaction. Foreign currency monetary items at reporting date are translated at the exchange rate existing at reporting date. Non-monetary assets and liabilities carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Exchange differences are recognised in the statement of comprehensive income in the period in which they arise.

i) **Financial Assets**

The company classifies its financial assets in the following categories: held-to-maturity investments and receivables. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

Held-to-Maturity Investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the company's management has the positive intention and ability to hold to maturity.

Held-to-maturity investments are measured at subsequent reporting dates at amortised cost.

Held-to-maturity investments in commercial banks by the company are recorded at their amortised cost and not remeasured to market values as they are considered likely to be held to maturity in line with investment objectives and fixed price nature of the investments.

Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the balance date, which are classified as non-current assets. The company's receivables comprise 'trade and other receivables' disclosed in the statement of financial position (Note 6).

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less allowance for doubtful debts. An allowance for doubtful debts of trade receivables is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of the receivables. Allowance is raised on a specific debtor level as well as on a collective basis.

Significant financial difficulties of the debtor and default or delinquency in payments are considered indicators that a specific debtor balance is impaired. Impairment assessed at a collective level is based on past experience and data in relation to actual write-offs. The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognised in the statement of comprehensive income. When a trade receivable is uncollectible, it is written off against the allowance account for trade receivables.

Subsequent recoveries of amounts previously written off are credited in the statement of comprehensive income.

j) **Impairment of Non Financial Assets**

The company assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate value model is used.

For assets, an assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the company makes an estimate of recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. The increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such a reversal is recognised in the statement of comprehensive income.

1.5 Summary of Significant Accounting Policies (Cont'd)

k) Income Tax

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current Tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance date. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulations is subject to interpretation and establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current tax for the year

Current tax is recognised as an expense or income in statement of comprehensive income, except when it relates to items credited or debited directly to equity.

l) Inventories

Inventories comprising of merchandise and consumables are valued at the lower of cost or net realisable value. Cost is based on first in first out principle. Cost includes expenditure incurred in acquiring the inventories and bringing them to their existing condition and location. Work in progress and finished goods include raw material costs, direct labour costs, variable overhead and a portion of fixed overhead costs allocated on the basis of normal operating capacity.

m) Leased assets

Assets acquired under finance leases are included as property, plant and equipment in the statement of financial positions. Finance leases effectively transfer from the lessor to the lessee substantially all the risks and benefits incidental to ownership of the leased property. Where assets are acquired by means of finance leases, the present value of the minimum lease repayments is recognised as an asset at the beginning of the lease term and amortised on a straight line basis over the expected useful life of the leased asset. A corresponding liability is also established and each lease payment is allocated between the liability and interest expense.

Other leases under which all the risks and benefits of ownership are effectively retained by the lessor are classified as operating leases. Operating lease payments are charged to expense in the periods in which they are incurred.

Company as Lessor

Rental income from operating leases is recognised on a straight line basis over the term of the relevant lease.

n) Property, Plant and Equipment

Leasehold land and building and plant and equipment are stated at fair value less any subsequent accumulated depreciation and subsequent impairment losses. Revaluation are performed by external independent valuers with sufficient regularity that the carrying amounts do not differ materially from those that would be determined using fair value at the end of each reporting year.

Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset, and the net amount is restated to the revalued amount of the asset. Any revaluation increase arising on the revaluation of such land and buildings is credited as other comprehensive income in the Statement of Comprehensive Income and recorded as revaluation reserve in shareholders' equity. Decreases that offset previous increases of the same asset are charged against other comprehensive income and revaluation reserves in the equity; all other decreases are charged as expense in the Statement of Comprehensive Income. On the subsequent sale or retirement of a revalued property, the attributable revaluation surplus remaining in the asset revaluation reserve is transferred directly to retained earnings

Other assets are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition and installation of the items

Depreciation on other assets is calculated using the straight-line method to allocate their cost or revalued amounts to their residual values over their estimated useful lives. The annual depreciation rates are as follows:

Leasehold land and buildings	Term of lease
Furniture, fittings and office equipment	10 - 20%
Plant and machinery	10 - 20%
Motor vehicles	20%
Renovations	10%

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are taken into account in determining the results for the year.

Capital work in progress principally relates to costs and expenses incurred for capital works in the nature of property, plant and equipment. Capital work in progress is stated at historical cost and is not depreciated.

**1.5 Summary of Significant Accounting Policies (Cont'd)**

**o) Investment Properties**

Investment properties principally comprising freehold land and buildings are held to earn rentals and/or for capital appreciation, are measured initially at cost including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the balance date. Gains or losses arising from changes in the fair values of investment properties are included in profit and loss in the year in which they arise, Rental income from investment properties are accounted for.

Investment properties, are derecognized when either they have been disposed or when the investment properties are permanently withdrawn from use and no future economic benefits are expected from their disposal. Any gains or losses on the retirement or disposal of investment properties are taken into consideration in determining the results for the year.

**p) Provisions**

Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that the company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risk and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefit required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that recovery will be received and the amount of the receivable can be measured reliably.

**q) Deferred Capital Grant**

The cost of assets funded by government by way of grant has been capitalized to plant and equipment and the corresponding credit has been taken up as deferred income. The benefit arising from the grant, being the recoupment through depreciation, is credited to revenue over the period of the useful lives of those assets. Other grants are amortised to income in proportion to the expenditure subject to the grant.

**r) Share Capital**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

**s) Revenue Recognition**

Sale of Goods

Sales revenue represents revenue earned from the sale of agro food products and is stated net of returns, trade allowances and Value Added Tax. Revenue from sale of goods are recognised at the point of sale.

Rental Income

Rental income is recognised on an accrual basis and is earned from renting of property and is stated net of Value Added Tax.

Dividend Income

Dividend income from investments is recognised when the right to receive payment is established.

**t) Value Added Tax (VAT)**

Revenues, expenses, assets and liabilities are recognized net of the amount of VAT, except:

- i) where the amount of VAT incurred is not recoverable from the taxation authority, it is recognized as part of the cost of acquisition of an asset or as part of an item of expense; or
- ii) for receivables and payables which are recognized inclusive of VAT.

The amount of VAT recoverable from, or payable to, the taxation authority is included as part of receivables or payables.

The VAT component of cash flows arising from operating and investing activities which is recoverable from or payable to, the taxation authority is classified as part of operating cash flows.

**NOTES TO THE FINANCIAL STATEMENTS - Continued**  
**FOR THE YEAR ENDED 31 DECEMBER 2014**

**1.6 Financial Risk Management**

**1.6.1 Financial Risk Factors**

The company's activities expose it to a variety of financial risks: market risks (interest rate risk, foreign exchange risk), credit risk, liquidity risk, regulatory risk and operational risk. The company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the company's financial performance.

Risk management is carried out by the executive management under policies approved by the board of directors. The board provides policies for overall risk management.

(a) **Market Risk**

Market risk is the risk that changes in the market prices, such as foreign exchange rates, interest rate and credit spreads which affects the company's income or the value of its holdings of financial instruments. The objective of market risk management is to control market risk exposures within acceptable parameters while optimising the return on risk.

*i) Interest Rate Risk*

The company has significant interest-bearing borrowings. Borrowings from its sole shareholder, the Fijian Government, is at a fixed interest rate. Hence, there are no interest rate risks during the term of the loan.

The company also has an overdraft and term loan facility from BSP Banking Group Limited which is at a variable interest rate. This exposes the company to interest rate risk. These risks are managed closely by the directors and the management within the approved policy parameters. For additional borrowings, the company negotiates an appropriate interest rate with banks and other lenders and borrows from banks and other financial institutions which offers the overall favourable terms, including the interest rate.

The risk is monitored and managed by the directors within the approved policy parameters.

*ii) Foreign Exchange Risk*

The company sells its products overseas and purchases materials from overseas suppliers. To mitigate movements in exchange rates, the company's invoices to customers and from suppliers are quoted in Fijian Dollars.

(b) **Credit Risk**

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the company. The company has adopted a policy of dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults. The company's exposure and the credit ratings of its counterparties are continuously monitored. Credit exposure is controlled by counterparty limits that are reviewed and approved by the management on a regular basis.

The company's credit risk exposure is closely monitored by directors and key management personnel for timely settlement of credit.

(c) **Liquidity Risk**

Liquidity risk is the risk that the company will encounter difficulty in meeting obligations for its financial liabilities. Prudent and careful management of the company's liquidity position is essential in order to ensure that adequate funds are available to meet the company's ongoing financial obligations.

The company manages liquidity risk by maintaining adequate banking facilities, borrowing from Government and by continuously monitoring forecast and actual cash flows.

The table below analyses the company's financial liabilities into relevant maturity groupings based on the remaining period at the balance date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

<b>31 December 2014</b>	<b>On demand</b>	<b>&lt; 1 year</b>	<b>&gt; 1 year</b>
Interest bearing borrowings	550,506	-	2,644,658
Trade and other payables		1,410,587	
	<u>550,506</u>	<u>1,410,587</u>	<u>2,644,658</u>
<b>31 December 2013</b>	<b>On demand</b>	<b>&lt; 1 year</b>	<b>&gt; 1 year</b>
Interest bearing borrowings	619,655	-	2,709,848
Trade and other payables		1,270,961	
	<u>619,655</u>	<u>1,270,961</u>	<u>2,709,848</u>

(d) **Regulatory Risk**

The company's profitability can be impacted by regulatory agencies which govern the business sector in Fiji, specifically food and safety regulatory requirements. The company's operations is also impacted by the Cabinet's decisions.

(e) **Operational Risk**

Operational risk is the risk of loss arising from systems failure, human error, and fraud to external events. When controls fail to perform, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial crisis. The company cannot expect to eliminate all operational risk, but through a control framework and by monitoring and responding to potential risks, the company is able to manage risks. Controls include effective segregation of duties, access, authorization and reconciliation procedures, staff education and assessment procedures.

FOOD PROCESSORS (FIJI) LIMITED  
 NOTES TO THE FINANCIAL STATEMENTS - *Continued*  
 FOR THE YEAR ENDED 31 DECEMBER 2014

1.6 Financial Risk Management (Cont'd)

1.6.2 Capital Risk Management

The company's objective when managing capital are to safeguard the company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optional capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the company may adjust the amount of dividends paid to stakeholders, return capital to shareholders, issue new shares and / or sell assets to reduce debt.

The company monitors capital on the basis of gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including 'current and non-current borrowings' as shown in the statement of financial position) less cash and cash equivalents. Total capital is calculated as 'equity' as shown in the statement of financial position plus net debt.

The gearing ratios at 31 December 2014 and 2013 were as follows:

	31 December 2014 \$	31 December 2013 \$
Interest bearing borrowings	4,178,699	4,305,324
Less: cash and short term deposits	10,908	5,528
Net debt	<u>4,189,607</u>	<u>4,310,852</u>
Share deposits	1,000,000	1,000,000
Equity	(149,196)	231,851
Total capital (equity + net debt)	<u>5,040,412</u>	<u>5,542,703</u>
Gearing ratio % (net debt / total capital)	83%	78%

1.7 Critical Accounting Estimates and Judgements

In application of the company's accounting policies, which are described in Note 1.5, the directors and the management are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of revision and future periods if the revision affects both current and future periods.

The company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year and in future are discussed below.

1.7.1 Critical judgments in applying the company's accounting policies

(a) *Impairment of Property, Plant and Equipment and Investment Property*

The directors assesses whether there are any indicators of impairment of all property, plant and equipment and investment property at each reporting date. Property, plant and equipment and investment property are tested for impairment and when there are indicators that the carrying amount may not be recoverable, a reasonable provision for impairment is created. The directors and managements assessment of recoverable amount involves making a judgment, at the particular point in time, about inherent uncertain future outcomes of events or conditions.

Accordingly, subsequent events may result in outcomes that are significantly different from assessment for the year ended 31 December 2013, no provision for impairment has been made as the directors reasonably believe that no indicators for impairment exist.

(b) *Impairment of Accounts Receivable*

Impairment of accounts receivable balances is assessed at an individual as well as on a collective level. At a collective level, all debtors in the 90 days and above category (excluding those covered by a specific impairment provision) which are estimated to have been impaired, are accordingly provided for based on historical loss experience and prevailing conditions. Receivables considered uncollectable are written off in the year in which they are identified.

(c) *Prima Facie Tax Option*

In 2009, the company has changed to the prima facie tax option which has given raise to the removal of tax effect accounting hence leading to prior period adjustments for deferred tax assets and deferred tax liability.

(d) *Operating Lease Commitments*

The company has entered in commercial property leases. The company has determined based on an evaluation of the terms and conditions of the arrangements, that it does not retain all the significant risks and rewards of ownership of the property and so accounts for the contracts as operating leases.

In accordance with the security arrangements of borrowings, as disclosed in Note 13 to the financial statements, leasehold land & building and plant and equipment of the company have been pledged to ANZ Banking Group Limited as security.

- An independent valuation was carried out Northern Property Valuation and Consultants of the company's Savusavu Property and Batiri Properties to assess their fair value in 2012. The Savusavu Property had been valued at \$112,000 based on market value on 26th June 2012 and Batiri Farm had been valued at \$1003000 on 24th September 2012. The book value of the Savusavu property and Batiri as at balance date were \$200,000 and \$933,832.00 respectively. The excess of market value over book value has been brought to accounts.
- On 25 March 2003, the Cabinet approved liquidation of Batiri Orchards, a subsidiary of National Trading Corporation Limited (NATCO) and to transfer its assets to the Ministry of Agriculture, Sugar and Land Resettlement. However, as per recommendation by the board of directors on 21 October 2015, Batiri Farm property is to be reflected as property, plant and equipment in the current financial statements of Food Processors (Fiji) Limited (the company). On 09 June 2017, the Ministry of Public Enterprise provided a written confirmation that Food Processors (Fiji) Limited is the registered title holder and the current lessee of the land.
- In 2008 the company has adopted the fair value method of valuation and hence the 2008 balances have been revalued to bring the investment property to the market value

On 2 October 2008, the company refinanced its existing bank overdraft and bank loan in relation to insurance premium funding facility with Westpac Banking Corporation amounting to \$298,311 by ANZ Banking Group Limited.

FOOD PROCESSORS (FIJI) LIMITED  
 NOTES TO THE FINANCIAL STATEMENTS - Continued  
 FOR THE YEAR ENDED 31 DECEMBER 2014

13 Interest Bearing Borrowings (cont'd)

(c) Government of Fiji Loan

In March 2003 National Trading Corporation Limited (NATCO), a company responsible for the administration of National Marketing Authority in the 1990s was wound up as per Cabinet decision, and its assets and liabilities including, Government loan balance amounting to \$2,900,000, were transferred to the books of Food Processors (Fiji) Limited, in accordance with legal notice No. 18 Public Enterprises (National Trading Corporation Limited) Regulation 2004.

In February 2005, the Cabinet decided that the original loan amounting to \$2,900,000 be restructured as follows:

Original loan	2,900,000
Less: Batiri property / asset to be transferred	(960,000)
Equity of government	<u>(1,000,000)</u>
Net loan	<u>940,000</u>

However, the Ministry of Finance, National Planning and Sugar Industry opposed this decision, stating that transfer of Batiri property cannot be treated as a loan repayment and the restructured loan amount of \$960,000 would need to be recorded as liability in the books of Food Processors (Fiji) Limited.

During the board meeting held on 21 October 2015, the board of directors notes the previous boards decisions and recommended loan restructure recorded in the company's books of account as follows:

Original loan	2,900,000
Equity of government	<u>(1,000,000)</u>
Net loan	<u>1,900,000</u>

Accordingly, assets and liabilities and income and expenditure of Batiri Farm has been recorded in the books of the company in the current financial year.

As part of loan restructure process, Government loan amounting to \$1 million was converted to equity. Since, formalities and documentation for allotment of shares were not completed as at balance date, the loan has been disclosed as share deposits.

The net loan balance was subject to interest at the rate of 5% per annum and repayable over a period of ten years with a moratorium in principle only for the first three years (2004 - 2006).

However, on 16 November 2009, the Cabinet approved to waive all accrued interest on the Government loan and to freeze any interest on the remaining loan until disposal of underutilized properties of the company, namely NATCO building and Savusavu property.

14	Deferred Income	31 December 2014 \$	31 December 2013 \$

<b>Total</b>	<b>152,766</b>	<b>152,766</b>

**d) Directors Fees**

Directors fees of \$13,883.36 (2013: \$18,804.19) was paid to directors.

**21 Events Subsequent to Balance Date**

On 16 November 2009, the Cabinet approved the restructure of loan balance from the Government of Fiji to the company, waived accrued interest and suspended interest on the remaining outstanding Government loan balance, until the disposal of underutilized properties of the company, namely NATCO building and Savusavu property. On 21 October 2015, the board of directors noted the previous board's decision and approved the recording of Batiri Farm assets and liabilities in the financial statements of Food Processors (Fiji) Limited from 2008 subject to legal opinion from Solicitor General's office. On 09 June 2017, the Ministry of Public Enterprise provided a written confirmation that Food Processors (Fiji) Limited is the registered title holder and the current lessee of the land.

Furthermore, the Government of Fiji is in the process of divesting its shareholding in the company. At the date of this report, the process is yet to be completed. The company has refinanced its loan from BSP to Fiji Investment Corporation Limited (FICL). This was done to meet the outstanding debt/demand notice from BSP bank. Through Government approval, sale of property was initiated for NATCO Building, Walubay and Savusavu Industrial, Savusavu. This sale of property process is still on going. Upon sale, surplus funds after paying off FICL loan will be used to retain and re-invest in Food Processor's (Fiji) Limited for capital investment purpose. The company is also viewing into conversion of government loan of \$1.9m into equity.

**FOOD PROCESSORS (FIJI) LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS - Continued**  
**FOR THE YEAR ENDED 31 DECEMBER 2014**

**22 Financial Instruments**

Set out below is a comparison by category of carrying amounts and fair values of all of the Company's financial instruments that are carried in the financial statements.

<i>Financial assets</i>	<b>2014</b>	<b>2013</b>
	\$	\$
Cash	626	5,527
Trade and other receivables	704,608	1,041,665
Term deposit/Refundable deposit for warehouse	9,064	9,064
	=====	=====
<i>Finance liabilities</i>		
Bank overdraft	550,506	582,594
Interest bearing borrowings	3,604,658	3,669,848
